CHAIRING Q&A AT ECNP 2025

Thank you for agreeing to chair a session at the ECNP 2025 Conference.

Here is a quick guide to how you can access questions to put to the speakers or panel and engage with the audience.

Delegates and viewers will be able to submit questions:

- in the auditorium (using the microphones provided)
- via the SliDo app - either via QR code (in person only) or located next to the video player (virtual attendees only)

Please do take some time to read through the below and familiarise yourself with the procedures to ensure you're ready on the day. If you require polls/quizzes in your presentation, please submit these to mattwalker@firstsightmedia.co.uk by Thursday 5th June 2025.

Oh, and good luck... break a leg.

EQUIPMENT

None required! A tablet will be set up and logged in for you on the lectern/top table in each room.

ACCESSING THE QUESTIONS

Step 1: Invite delegates throughout the session to submit questions!

Questions will appear on the tablet screen once submitted (example below) and users are able to see all questions as they come in and can 'like' any they choose - the most popular will move to the top of the panel. As chair, you can choose to 'close' any once answered (or that you deem inappropriate). This will remove them from the users' view too.

If you require any assistance with SliDo on the day, you can ask the First Sight Media technician at the back of your auditorium. If you require polls/quizzes in your presentation, please submit these in advance to mattwalker@firstsightmedia.co.uk by Thursday 5th June 2025.

Step 2: Ask the speakers the questions: You can choose to ask the most popular question (with the most likes) or any that you prefer. Please be sure to read the question out loud to make it as accessible as possible.
